

AMETEK Drexelbrook

205 Keith Valley Road, Horsham, PA 19044-1499 U.S.A.
Telephone: 215-674-1234 Fax: 215-674-2731

Warranty:

AMETEK Drexelbrook warrants the equipment to be free from defects of material and workmanship under normal use and service conditions for a term of 12 months from date of shipment. This warranty shall not apply to Equipment to which any modifications, alterations, or attachments have been made without written authorization from Drexelbrook. All other warranties, expressed or implied, including warranties of fitness for any particular purpose and merchantability, are excluded. If the Customer rightfully rejects the Equipment or justifiably revokes acceptance of the Equipment, Drexelbrook shall be liable only to re-pay any part of the purchase price theretofore paid, upon the return of the Equipment. After acceptance of the Equipment, if any part is found to be defective under specified service conditions and while the warranty is in effect, Drexelbrook will at its option repair or replace such part f.o.b. its factory provided that the original part is returned to its factory, transportation pre-paid, pursuant to the shipping instructions from Drexelbrook and Drexelbrook's inspection establishes the claim. Drexelbrook, at its option, may determine the part should not be returned and replace the equipment f.o.b. its factory.

The foregoing constitutes the Customer's sole and exclusive remedy for a warranty claim. Drexelbrook shall in no event be liable for the cost of removal, re-installation or repairs or replacements made by the Customer.

Equipment Returns:

Any equipment being returned for repair or credit must be pre-approved by the factory. In many applications, sensing elements are exposed to hazardous materials.

- OSHA mandates that our employees be informed and protected from hazardous chemicals.
- Material Safety Data Sheets (MSDS) listing the hazardous materials to which the sensing element has been exposed MUST accompany any repair.
- It is your responsibility to fully disclose all chemicals and decontaminate the sensing element.

To obtain a return authorization (RA#), contact the Service department at 1-800-527-6297 (US and Canada) or + 215-674-1234 (International).

Please provide the following information:

- Model Number of Return Equipment
- Serial Number
- Original Purchase Order Number
- Process Materials to which equipment has been exposed
- MSDS sheets for any hazardous materials
- Billing Address
